Dear Potential Sponsor,

We are pleased to announce the Dairy Cattle Welfare Symposium to be held **June 4-6, 2024 in Kansas City, MO** at the **Marriot Downtown Hotel**. We'd like to offer you the opportunity to be added as sponsor for the 2024 Symposium (current draft program agenda is attached).

Each of the previous symposiums have been great successes with around 240 people in attendance for the last in-person program held in 2023. Anyone who has an interest and a stake in dairy cattle welfare is invited to attend. Participants include dairy producers, veterinarians, consultants, government, academicians and allied companies.

The Dairy Cattle Welfare Council (DCWC) is a nonprofit organization that was formally established in 2016 to promote dairy cattle welfare by bringing together dairy farmers, veterinarians, consultants, universities, and the dairy community to develop best recommended practices with focus on animal well-being, management, husbandry, animal-people interaction, health, and productivity. Our annual symposium is a two-day meeting with speakers from multiple areas of the dairy community to educate and share research, on-farm practices, and innovation in the area of dairy cattle welfare.

Companies who are interested in demonstrating their commitment to dairy cattle welfare by sponsoring this symposium may do so at four different levels:
